

Co-Pack Shipping Policy

It is our policy to offer you the lowest freight rates possible.

To do this we use several freight companies and quote each shipment to provide you the lowest possible shipping cost.

Depending upon your destination delivery needs we can offer lift gates and call before delivery instructions to the freight company.

It is requested that upon receiving your product please inspect for damage.

If you have any damage in shipping please take pictures and email them to info@gourmetrecipeexperts.com, and include your invoice or tracking number in the email. The sooner we are informed of the damage the sooner we are able to assist you in filing the claim on the freight company.
